I feel it would be foolish for anyone to want to stop the broadcast of traffic and weather on XM radio. I only just returned Saturday from a trip to Ohio. I used the traffic to navigate thru Washington DC and Ohio both going and returning as well as staying turned to the weather in Ohio due to the severe storms they were having last week. No other service offer this and as a traveler weather and traffic is important while on the road. The services that XM has to offer is one of the best in the nation and by silencing these stations you will be putting people at risk !!

Thank You

John Mitchell
